

ACTL MATH ADVISORY COMMITTEE MEETING MINUTES

9-

-

- b. English Learner and SPED offices will be there too to help present on the SOL math results for their respective categories
- c. We were given a preview of some of those results, but the detailed math results from the SOL will be fully released there
- d. APS made more growth in recovery in math scores than the statewide average
- e. Huge correlation too between attendance and poor math performance at APS and state-wide
- f. We also had a discussion of how SOL results are used for curriculum at the school, vs. screeners (screeners are used much more for addressing a child's needs, but SOL results are also used)
